Subject: Water Well Surveys

Stacey,

Attached are the surveys we discussed last week. To avoid confusion, please note when viewing the contour map for September 2012 part of the monitor well ring is not displayed because we do not have data for those points in September 2012. See the Water Well Surveys table in the September 2012 column and you will see blacked out lines. The blacked lines indicate no survey measurements taken. I hope everything is easy to understand and straight forward. Please let me know if you have any questions. Sorry about the slight delay in getting the information together.
